

Actuarial Analyst - Non-Life Insurance

The Organization

The Insurance Premium Rating Bureau (IPRB) was established by the General Insurance Association to provide recommendation on the reference loss costs of non-life insurance products.

As the Thai insurance industry evolves, our responsibilities have broadened and we have played a vital role in helping the industry adapt to changes such as the introduction of the Risk Based Capital and certification of outstanding liabilities valuation.

In a fast changing environment, we strive to serve and assist the industry to meet its ever increasing challenges.

The Role

There is currently an opportunity to join the actuarial team of IPRB. The position reports to the Chief Actuary with responsibilities including:

- Data reconciliation and assisting clients with liability valuation exercise
- Loss cost calculation
- Industry portfolio monitoring report design and implementation

This is a rare opportunity to be able to make a positive contribution to the development of Thai insurance industry, gain an industry wide exposure while working in a supportive, friendly and result-oriented environment.

The Candidate

The candidate should be degree qualified in a quantitative discipline such as actuarial studies, statistics or mathematics.

Previous experience in non-life insurance industry would be viewed favorably, but not essential. The candidate should possess:

- Strong numerical and analytical skills
- Initiative, independent thinking, interpersonal skills and attention to details
- Proficient with SAS, Excel, database manipulation and programming
- Written and verbal communication skills in Thai and English

Interested candidates should send their resume and academic transcript to: iprb@iprbthai.org by 28 February 2010.
